Fulcrum developments  
Whistler B.C.

Re: Woodbridge Town home development, Pemberton, B.C.

Owner testimonial:

I purchased my unit in Woodbride during the pre-sale stage of the project. The delivery of the unit was on time and the end product was exactly what was promised by the developer. I purchased many upgrades from the developer with the workmanship being of very good quality. Any deficiencies (which were few in my unit) were dealt with professionally and in a timely manner...which I might add is becoming rarer these days in residential development.

All in all we are very happy with the quality and design of our unit and the manner in which Fulcrum Developments handles their business.
